George Staktopoulos (above), newspaperman in Salonika, Greece, his mother, and two Communist fugitives have been charged with the murder of George Fok, 31, American radio correspondent, last May. Staktopoulos is said to have been a leader in the Communist-led E.A.M. (below).

## Greeks Say Chief Communist Killed U.S. Correspondent

### Member of Central Group Is Alleged to Be the Actual Slayer of Fok

Salonika, Greece, Oct. 18 (AP)—The Greek government says a top Communist killed George Fok, correspondent for the Columbia Broadcasting System, last May.

Topping off a five-month investigation of the slaying, the government yesterday named three others charged with complicity in the murder. Two of them are under arrest.

One of the persons under arrest was quoted as believing the murder was planned by the Communist International Information Bureau to discredit the Greek government abroad.

The government said the actual slaying of Fok was done by Adam Moutzouris, member of the central committee of the Greek Communist Party. It was alleged to have shot the correspondent in the back of the head. Fok lay bloodied and trussed up in a boat in Salonika Bay last May 15.

The other three charged with complicity in the murder were: George Staktopoulos, still at large, Greek newspaperman; Communist newspaperman, and his mother, Anna, both under arrest for the past two months.

### Face Conspiracy Charges

All four face charges of conspiracy to murder Fok. Moutzouris is charged with planning.

## Edwards Raps Idea Mid-Hudson Span Has Paid for Self

The Mid-Hudson Bridge spanning the Hudson river between Poughkeepsie and Highland has not paid for itself, contrary to reports from other quarters, Dr. John L. Edwards of Hudson, a member of the New York State Bridge Authority, said this week.

Take the original debt and all of the expenses of the bridge construction and you will find that the revenues collected have not met this figure," Dr. Edwards said.

He added that if the Mid-Hudson Bridge were made toll-free now or if the tolls were drastically reduced it would be necessary to put the bridge debt on the state tax books. "This, he said, would seem unfair because it would mean that a person in the western part of the state necessarily would have to pay for a bridge they might never use."

Before the automobile, it would have been impossible for anyone to live any distance away from New York City. Today a man can live where he wants. He should be willing to pay for the service offered by the bridge, just as he pays for other services," Dr. Edwards said.

At the same time, it was reported that a plan for united action to free the mid-Hudson Bridge of tolls was endorsed by heads of two Poughkeepsie business men's groups. The plan was advanced Friday by Highland residents.

One Benton, head of the Poughkeepsie Business and Professional Men's Association, said a concerted effort by Mid-Hudson valley residents would be "most helpful" in freeing the bridge of tolls.

Samuel Warshaw of Poughkeepsie said that the Highland residents' proposal for a toll-free bridge was "a very good idea."

## DeGaullists And 'Coms' Trailing

### DeGaulle Says Votes Do Not Show True Strength; Socialists in Lead

### To Choose Council

### Electoral College Will Name 320 Members of Group

Paris, Oct. 18 (AP)—Candidates running under the Rightist banner of Gen. Charles De Gaulle and the Communists of the extreme left trailed in voting for the electoral college, but the De Gaullists claimed far more strength than the figures showed.

The election was held yesterday to choose 100,000 members of the electoral college which on November 7 will name the 320 members of the Council of the Republic, the advisory upper house of France's Legislature. Nearly complete returns showed the Socialists and Independent Socialists received 26 per cent of the vote; the Radical Independents, 21 per cent; the Rally of the French People (R.P.F.), De Gaulle's group, 13 per cent; Radical Socialists (Conservatives), 12 per cent; Communists, 10 per cent; the Centrist Popular Republican Movement (M.R.P.), nine per cent; and miscellaneous others, nine per cent.

The figures were supplied by the interior ministry. The secretary of the R.P.F. issued a statement saying the figures were unrealistic. It said the ministry listed candidates strictly by party classification and took no note that some parties under other labels were known De Gaulle supporters.

Before the election, the R.P.F. had expressed hope of getting 40 per cent of the votes under its own label, as it had in the local elections last year. However, the last year's balloting was a direct vote. Yesterday's was by the leading citizens of the respective communities, and there is no way of making a comparison between the two elections.

The DeGaullists claim to have many followers in the splinter groups and among those who voted for the Radical Independents, a heretofore small party which took 21 per cent of yesterday's votes. The R.P.F. statement said it never required its adherents to renounce their parties.

The Communists and the M.R.P. were the biggest losers, each now holds about 25 per cent of the strength in the Council of the Republic.

En Route with Dewey to Albany, Oct. 18 (AP)—Governor Thomas E. Dewey promised today that if he is elected president he will "bring to Washington a government with both a head and a heart."

Heading for his home base of Albany in the wind-up of his second campaign trip, the Republican presidential nominee spoke to a crowd which packed the large concourse of the Buffalo New York Central station. His audience was estimated at 12,000 by Police Commissioner Thomas J. McMahon.

"You don't know what it feels like to get home after wandering all over the United States," the New York Governor said.

Dewey said there is "rising sentiment among our people for a new government in Washington with new competence."

## First Snow of Season Hits Capital District

Albany, N. Y., Oct. 18 (AP)—The first snow of the season hit Albany, Glens Falls and Troy today.

A 30-minute snowfall at Pompey in Onondaga county ended shortly before midnight. The flakes melted on the ground.

The early snow was caused by freezing temperatures at 10,000 feet, the Weather Bureau said. Around temperatures generally were in the mid-30s. The bureau predicted clearing weather and freezing temperatures for tonight.

## President Says War Course Story Is Wicked Lie

### Vinson Would Have Gone to Moscow to Dispel 'Poison' of Distrust He Says

Miami, Fla., Oct. 18 (AP)—President Truman said today he considered sending Chief Justice Vinson to Moscow to ask Premier Stalin to help dispel "the poisonous atmosphere of distrust" surrounding negotiations between "the western powers and the Soviet Union."

The President, in a speech prepared for the annual American Legion Convention, described as a "wicked falsehood" what he called "loose and irresponsible talk to the effect that the United States is deliberately following a course that leads to war."

"So long as I am President of the United States, there will be no ship on the shoulder of America," Mr. Truman declared.

He flew from Washington in an avowed "non-political" role, and in his address described himself as "a delegate from Missouri, a comrade-in-arms, and commander-in-chief of our armed forces."

Mr. Truman previously had said he called the proposal to send a special emissary to Moscow, my purpose was to ask Premier Stalin's cooperation in dispelling the present poisonous atmosphere.

## Mountains Have First Snowfall; Roads Are Open

The season's first snowfall covered a small area of Ulster county and blanketed other regions of the Catskill mountains with from three to four inches of snow Sunday night.

The only area of roadway reported covered was at Highmount, but reports today indicated that the snow had melted quickly and was no traffic hazard.

State police reports indicated that the snowfall was general in the mountain regions of Delaware and Greene counties and many peaks were still snow-capped this morning.

The snowfall was reported of considerable duration in the Marquetteville area and in the mountains around Pine Hill, but reports from the latter village said it did not cover the ground in the village or in the lower regions of the valley.

# Israel Accepts U.N. Peace Talk Offer, But Refuses to Heed Cease Fire Proposal Until Assured Egyptians Will Behave

## Security Council To Discuss New Palestine Flareup

### Bunche Is Still Trying to Get An Agreement For a 3-Day Truce; Two Sessions

Paris, Oct. 18 (AP)—The United Nations Security Council today was called to meet in special session tomorrow to discuss the new flareup of fighting in Palestine.

Warren R. Austin, U. S. delegate and October president of the council, ordered the session after conferring twice with Dr. Ralph Bunche, the interim Palestine mediator. Bunche said earlier he would ask for such a meeting if Israel refused to accept a three-day cease fire order in the southern desert, where Israeli and Egyptian troops are fighting.

Bunche said he still is trying to get an agreement for a three-day truce.

The special session of the council means it will meet twice tomorrow, once at 10:30 a. m. (4:30 a. m. E.S.T.) on Palestine, and again at 3 p. m. (9 a. m. E.S.T.) on the Jordan crisis.

Bunche made his request for the three-day cease-fire yesterday to Israeli Foreign Minister Moshe Shertok, who is at the U.N. meeting in Paris. Israeli officials said late last night the mediator's request is under consideration.

Bunche said he had talked with Warren Austin of the United States, October president of the Security Council.

"He said he would call a meeting if I gave him the signal that it was urgent and necessary," the mediator said.

The Council already is scheduled to meet on the Berlin crisis tomorrow afternoon, but Bunche said it could take up the Palestine fighting in the morning if necessary.

The mediator said Egypt had accepted his cease-fire order. Israel rejected the original cease-fire order by the chief of the United Nations Truce Supervision Agency, but Bunche made his proposal for a three-day peace to Shertok.

"We're still waiting to hear from Israel," Bunche said.

"If a satisfactory reply doesn't come today, then we will go straight to the Security Council."

He declined to say what action he would ask the council to take. It now has before it a joint British-Chinese draft resolution to instruct both Arabs and Jews to operate more fully with U.N. truce supervision personnel.

Fighting in the Negev desert area of southern Palestine between the Jews and Egyptians flared up Friday.

The Jews said the Egyptians had attacked a supply convoy, attempting to reach Jewish settlements in the Negev. The Jews have been reported in heavy attacks in the area of the main Egyptian base at Gaza.

Israeli spokesmen said the Jewish attacks were aimed at securing a supply route to the Negev settlements.

They said they had rejected the truce order from the U.N. truce supervisors because it called for a withdrawal from positions they had gained since Friday.

Israeli spokesmen in Paris said last night Bunche's truce order did not call for withdrawal, leaving all such details to be worked out.

Both Arabs and Jews want the Negev, which was included in territory assigned to Israel under the U.N. partition plan but would be given to the Arabs under the proposed revisions in the report of the slain Holy Land mediator, Count Folke Bernadotte.

## Taylor Will Speak At Meeting of Nursing Districts

### Tenth Annual Conclave of County Groups Is Scheduled for Thursday

The highlight of the 10th annual meeting of the Ulster County Health Nursing Committees which will be held at the St. James M.E. Church Thursday, will be an address on the Rehabilitation of the Handicapped by Eugene J. Taylor. Taylor is a member of the Department of Rehabilitation, New York University, and is also a member of the editorial staff of the New York Times.

The theme of the meeting, "The Road to Health," has been divided into four topics for the morning session which denote the four phases of life—Infancy and Childhood, Adolescence, Adulthood and Old Age. These phases will be discussed by Dr. Helena Mathiasen, Miss Jeanne DuBois, Dr. Frederic W. Holcomb, and Dr. Hans Cohn, in this order.

Following the morning session, Mrs. Charles Walder, Jr., president of the Ulster County Public Health Nursing Committees, will preside at the luncheon meeting. Mayor Oscar Newkirk, Chief Schantz, chairman of the Ulster County Board of Supervisors; and Dr. Frank Seeley, president of the Board of Health, will greet and welcome the committees. Also, before Taylor's address, Dr. Frederic W. Holcomb and Harry Snyder, Ulster county supervisor, will discuss for their respective topics the "Progress of the Mass X-ray Survey" and the "Progress and Development of the Tumor Clinic."

There are 16 Public Health Nursing Committees functioning in Ulster county. These committees aid the Public Health Nurses in the Ulster County Health Department by carrying out surveys to determine the rate of vaccination and immunization in their communities and then assist at the various child health and immunization clinics set up as a result of their surveys.

The Public Health Nursing Committees have also set up a call service in each of their communities whereby a person in a rural area may get in touch with the public health nurse as soon as she is needed. The committees also arrange for health programs for organizations in their areas.

Each committee has its own president. The presidents in turn form the county committee which then elects its own state of officers. The president of the county committee coordinates the work of all of the committees with the work of the Public Health Nurses and the local Health Department.

The presidents of the town Public Health Nursing Committees are: Esopus, Mrs. Genevieve Tinnion; Hurley, Mrs. John Gill; Kingston, Mrs. Reynolds Van Keuren; Lloyd, Mrs. B. W. Olin; Marlborough, Mrs. Alvin Nicholas; Marlborough, Mrs. Edgar Clarke.

### Austin Says U.N. Can Go No Further Until Soviets Agree

Paris, Oct. 18 (AP)—The United States demanded today that the United Nations turn the deadlocked atomic energy problem over to the five great powers and Canada for direct negotiations.

Chief U. S. Delegate Warren R. Austin told the 58-nation political committee the United Nations could go no further in its efforts to control the atom until the Soviet Union agreed to "participate in the world community on a cooperative basis."

The Berlin dispute comes up tomorrow in the Security Council. A new compromise plan which would take the issue out of the U.N. is reported under consideration by the six neutrals of the council.

Russia and the three western powers, the United States, France and Britain, are said to have been made.

## German Steel Production Jumps to Postwar Record

Berlin, Oct. 18 (AP)—Steel production in the British and American occupation zones of Germany jumped to a new postwar record of 572,000 metric tons during September.

The new high was disclosed by the American military government today in its semi-monthly report on occupation affairs. The total represents a gain of 62,000 tons, or 12 per cent, over the previous high in August and an increase of more than 50 per cent since currency reform in the bizon in June.

Steel production in the Ruhr now is running a full six months ahead of the schedule established last spring.

Both pig iron production and the output of hot rolled products also increased.

The most important factors in these gains, the report said, were continued deliveries of coal above

## Jewish Troops Capture Heights Overlooking Negev Highway in South Palestine

### Battle Is Fierce

### Top Leader Is Placed in Charge of Fight in Desert Area

Tel Aviv, Israel, Oct. 18 (AP)—Israel accepted tonight a United Nations offer to arrange peace talks with Egypt on the fighting in the Negev. However, she rejected a cease fire proposal.

The foreign office said no cease fire proposal would be accepted until Israel is assured the Egyptians will behave.

In actions last night, Jewish troops stormed and captured heights overlooking the road Negev, Palestine's southern desert. A dispatch from Associated Press Correspondent Carter L. Davidson at the front said the Jews had succeeded in blasting open their supply route to the desert.

(The United Nations Security Council has been called into special session tomorrow morning in Paris to consider the new outbreak of fighting in the Holy Land.)

An Israeli foreign office spokesman said the United Nations had proposed a four-day truce in fighting "to settle peacefully the basic differences between the Egyptians and Israel in the Negev" and suggested peace talks in Jerusalem.

Ready to Talk  
Israel, he said, is ready to meet the Egyptians any time, any place for peace discussions. A cease fire is impossible, he added, unless the United Nations can guarantee the Egyptians will not take advantage of such a truce to improve their positions.

Israel has thrown its top commander into the battle for control of the Negev desert area where reports indicated heavy casualties as Jews and Egyptians struggled fiercely.

The noon communique said bombing targets for the third consecutive night were the El Arish air base, the city of Gaza, which is both the seat of the new Arab government for Palestine and the Egyptian headquarters, and Egyptian troop centers at Majdal, Fajuj and Beersheba.

There were reports here, which could not be confirmed, that Arab forces were evacuating Gaza.

(34 words deleted by censor.)

U.N. observers stationed at Gaza apparently had pulled out for bases farther south. Those in Tel Aviv speculated that they might be withdrawn completely because of Israel's defiance of the cease fire order and her refusal to let the observers go to the front.

Unofficial informants said that unless the Egyptians strike back in force, the present phase of the fighting appears to be near an end. That would indicate, if it is true, that the Israeli forces feel they now are strong enough to hold the Negev.

The Negev was placed under Jewish control by last year's U.N. partition decision, but Count Folke Bernadotte, the assassinated Palestine mediator, recommended that it go to the Arabs instead. The Jews object to this strenuously.

No Counter-Blow  
Thus far, the unofficial sources here said, there has been no real Egyptian counter-blow—either in the air or on the ground.

There was speculation that the Egyptians might hold off in an effort to present the Israeli attack as a flagrant truce breach.

(An Egyptian communique Saturday night said 500 Jews had been killed in fighting in the desert that day.)

Military censorship blacked out several key details of the fighting, even barring use of the Israeli commander's name and an order of the day to his troops throwing light on the scope and aims of the attack.

Israeli government spokesmen said the purpose of the Israeli attack was to smash open the road to Jewish settlements in the Negev, southern Palestine desert.

That road crosses the Egyptian supply and reinforcement road to Beersheba, Hebron and the southern arc of the Jerusalem front. If the Jews won full control they would cut the Egyptian supply and reinforcement route for much of southern Palestine.

An indication of at least partial Israeli success in that objective was receipt at U.N. headquarters in Haifa of an Egyptian complaint that the Jews had occupied positions east of Fajuj, blocking the highway approach from Gaza through Hebron to

## Wagner Suffers Amnesia Attack

New York, Oct. 18 (AP) Sen. Robert F. Wagner (D-N.Y.) suffered an attack of temporary amnesia during the week-end, when he disappeared from his son's Long Island estate, says his physician.

Dr. William C. Carhardt examined the 71-year-old senator shortly after he was found early yesterday at a Manhattan restaurant, one of his favorite eating places.

Wagner had been the object of a widespread police search for nearly 12 hours after he wandered away from the home of Robert F. Wagner, Jr., at Islip, N. Y., about 3 p. m. Saturday.

Early yesterday, the senior senator from New York and father of the New Deal labor relations act entered a restaurant near 85th street and Lexington avenue and ordered a sandwich and a cup of coffee.

Waiters, previously alerted by police concerning the senator's disappearance, notified authorities.

The son appeared at the restaurant and took his father back to the family home at Islip, where the elderly man was examined by Carhardt.

Carhardt said the senator suffered "temporary amnesia" but was "none the worse" for his little jaunt into the city.

The physician noted that Wagner's blood pressure and heart were in good condition. He later quoted the senator as saying he "couldn't understand why everyone else was upset" about his disappearance.

Reporters were not allowed to question Wagner when he was found in Jane Jaeger's Restaurant. Wagner's Senate term ends in 1950.

## Snow Reported, Cold Pack Moves East

Chicago, Oct. 18 (AP)—The mercury skidded to new all-time lows again today at many midwestern points as the premature wintry blast shoved on eastward toward the Atlantic coast.

Temperatures well below freezing were reported as far south as Nashville, Tenn., and northern Texas, but a sudden reversal had sent the mercury climbing in the northern plains states.

Snow was reported in parts of western Pennsylvania, and West Virginia.

## Brewery Employees Appeal to Council For Investigation

New York, Oct. 18 (AP)—Striking brewery truck drivers, charging a "speedup" delivery schedule allegedly imposed by the employers is a menace to themselves and the public, have appealed to the National Safety Council for an investigation.

The unauthorized walkout of 3,000-odd drivers and helpers, now in its fifth day, has hit nine major breweries and cut off 75 per cent of the city's normal beer supply.

Taps in some bars already have run dry, and supplies of bottled beer have been exhausted in some stores.

Officials of the C.I.O. United Brewery Workers Union, who say the strike is "wildcat" and violates the union's contract with the breweries, continued efforts to persuade the men to resume work.

The walkout, which started Thursday and spread quickly, is a rank-and-file protest against temporary suspensions of a number of drivers by four breweries for failure to meet a new delivery schedule.

A large number of inside workers at the breweries have been idled because of layoffs of refusal to cross picket lines.

Paul O'Dwyer, counsel to the rank-and-file and brother of Mayor William O'Dwyer, sent a telegram to the National Safety Council yesterday saying the delivery time schedule is a dangerous "speedup."

Asking the council to investigate the strikers' complaint, O'Dwyer said the schedule would have bad effects on the drivers' health and would be a menace to public safety.

The rank-and-file say the schedule—which is provided for in the union's contract—would require them "to deliver a case of beer in 45 seconds."

The union's international executive board was scheduled to meet today to attempt to find a way to persuade the strikers to end the walkout.

The breweries affected are Ruppert, Piel, Schaefer, Liebmann, Trommer, Anheuser-Busch, Burke, Ehret and Rubsam and Horrmann.

A tax on newspaper advertising existed in Massachusetts in the 1880's.

## Bronx Drivers Refuse To Sell Transfers

New York, Oct. 18 (AP)—Plagued by pennies and handling subway fares on buses, drivers throughout the Bronx refused yesterday to sell transfer tickets to the city's rapid transit system.

Passengers who have been paying a combined 12-cent rate for the bus and subway riders had to pay the six-cent bus fare plus the full ten-cent fare on subway and elevated routes.

Drivers on 29 lines of the Surface Transportation Company, a subsidiary of the Third Avenue Transit System, began their rebellion at 5 a. m.

However, they did honor two-

cent bus transfers presented by riders who had bought them at designated subway points.

A spokesman for a local of the C.I.O. Transport Workers Union said the "spontaneous" action by the drivers was approved by the union. He said issuance of the transfers involved too much work for the men and slowed up the schedules.

The spokesman added that the men will not handle subway transfer fares until the company installs machines to handle all small change.

The company reportedly is losing \$50,000 more a month under a six-cent fare than it did with a five-cent charge. It said that the increased deficit is due to the wage increase which accompanied the granting of the interim fare

rise by the Public Service Commission.

## BECAUSE MILLINERY is our SPECIALTY Our PRICES are RIGHT

LAST week, a young couple, whom we shall call "Mr. and Mrs. Jones," residents of a nearby city, came in the Claire Hat Shop to look at our display of hats. Mrs. Jones was wearing a black felt bonnet which she had purchased in her home town for \$2.98. IT WAS THE SAME HAT WHICH WE SELL FOR \$1.98! With this as proof that our top quality hats are the lowest priced in the vicinity, she looked over our selection more carefully. Finally she chose a smart looking Fall bonnet for \$4.98.

Monday morning our phone rang . . . it was Mrs. Jones from . . . City. "Would you please save the \$10 hat that I had admired so much?" We certainly would, and it is being held for her until she comes in next week.

Millinery is our only business and has been for nearly a lifetime. We know the market and we comb the manufacturers of the country for values so that we never sacrifice quality for price. Our hats come from as far west as Los Angeles; as far south as Atlanta, Ga.; Boston in the East; Buffalo in the North.

In our two establishments . . . the Claire Shop in Kingston and Moe Meyer Store in Newburgh . . . we sell more hats in a day than many do in a week because

## BOY SCOUT NEWS

Kingston District Boy Scouts were called out for an emergency mobilization today by Frank Bourke, District Scout Commissioner, in a radio announcement over WKNY. The mobilization was ordered to take place at the Port Jervis end of the Rondout Bridge at 3 p. m. and all Scouts were to come prepared for an overnight hike.

Further details were not divulged until the Scouts arrived at the assembly point but upon arrival the Scouts were organized into search parties and proceeded to look for an imaginary band of Kingston Indians who were supposed to be attacking the city. This program is in line with today's ceremony staged by the American Revolution who are celebrating the abandonment of a week in 1860-70.

Kingston during the Revolutionary War. The rendezvous point of the Scout searchers was Connelly Levels, just back of the Connelly school where they will camp for the night. An interesting program of wide games and a campfire has been planned for tonight by Mr. Bourke and his staff. Camp will break Sunday morning early enough for all Scouts to attend their regular religious services. Visitors at the camp will be welcome between 6:30 and 9 tonight. The purpose of the mobilization was to test local Scout units in answering an emergency call. This is the first time such a call has been made since the war years when similar calls were frequent and the Scouts performed many services for the Civilian Defense organization and the Office of War Information.

Reporters were paid \$15 to \$30 a week in 1860-70.

## M.J.M. Uses Voting Machines in Election

Members of the Student Council of the Myron J. Michael School are shown above receiving first hand information on the use of actual voting machines in their school elections. Shown from left in the photo are Marguerite M. Quick, clerk of the board of elections; Betty Ann Thomas, student commissioner; Joseph Epstein. Shown standing are Ida K. Sherwin, teacher; Joan Gallagher, student commissioner who is shown inside of the voting booth; Fred R. Van Keuren and Stanley Edinger, student commissioner. (Freeman Photo).

## MJM Students Use Voting Machines in School Elections

While voting members to the Myron J. Michael School Student Council, pupils of the school recently learned the correct procedure for voting in city and national elections through the help of the Board of Elections.

Voting machines were sent to the school by the Board of Elections and Miss Margaret Quick, Fred Van Keuren and Joseph Epstein, commissioners, accompanied the machines to assist the pupils. The school itself was divided into five wards with committees to supervise each. In order to vote, the pupils registered a week before the election. During this time each social studies teacher explained in class the workings of the voting machine.

Student commissioners working at the polls were Betty Ann Thomas, Joan Gallagher, Richard Petro, Stanley Edinger, Mary Trippico and Edmond Bower.

Actual campaigning also took place at the school with assemblies being held to allow the student politicians to speak before the other scholars.

Students running for office included Dorothy Tarr, Carl Constant, Jackie Bilyou and John Costello for president; Richard Constant, Seymour Liebergot, Patricia Cullum, Joan Walton, vice-president; Cynthia Stoketec, Linda Van Deusen, Jean Milliken, Evelyn Zolichman and Gertrude Linck, treasurer; and Glenn Edinger and Sally Rose, secretary.

## Heat Wave Caused Record August Deaths

Albany, N. Y., Oct. 18 (AP)—The heat wave last August caused the New York death rate to soar to its highest point for the month in 20 years, the State Health Department said today.

The rate of 10.3 deaths for each 1,000 population was five per cent above the five-year August average.

The department said a 30 per cent increase in the number of deaths was recorded during the week beginning Aug. 24 when the thermometer hit its highest level. Heart disease among persons over 65 caused most of the deaths, it said.

The death rates, for each 100,000 persons, were higher than ever before from heart diseases, cerebral hemorrhage, cancer and diabetes. Rates for pneumonia and diseases of the arteries were the highest for the month in four years.

The rate for heart diseases climbed to 374.4 for each 100,000 population as compared to 362.5 for 1947. Other comparative 1948 and 1947 rates for other diseases were:

Cerebral hemorrhage, 71.7 in 1948, 65.4 in 1947; cancer, 182.8, 178.8; diabetes, 39.4, 36.3; pneumonia, 26.7, 25.1; tuberculosis, 34, 33.3, and diseases of the arteries, 23.3, 21.6.

All types of accidents during the month caused 59.9 deaths for each 100,000 persons, as compared to 62.9 for the same 1947 month. The automobile accident rate during the month dropped to 14.7 from 16.2 last year.

The suicide rate of 11.5 compared to 12.1 last year. Homicide declined to 2.8 from 3.6.

The birth rate, 21.8 for each 1,000 population, continued to drop slightly. However, it was the highest for the month in 26 years except for 1946 and 1947, which recorded rates of 22.6 and 22.3, respectively.

Infant mortality, 26.7 for each 1,000 live births, was higher than the 23.6 recorded in August, 1947, but with that exception was the lowest ever recorded for the month. The maternal mortality rate, 14.1 for each 10,000 live and still births, exceeded the record low of 12.1 recorded in August last year, but was below the month's 1941-1946 average.

## Americans May Feel Effects of Hiroshima

New Haven, Conn., Oct. 18 (AP)—A scientist from the Brookhaven National Laboratories said here last night that genetic deaths induced by the atomic bombing of Hiroshima and Nagasaki "may eventually find their way to our shores, and it is not inconceivable that our own descendants may be affected by them."

Atomic radiation, doubling the mutation rate of germ cells, can cause the death of descendants of persons who survive atomic bombs, said Dr. Ralph W. Singleton, senior biologist at the Brookhaven Laboratory, Upton, N. Y. Singleton, on the staff of the Connecticut Agricultural Experiment Station until last May, said

in a talk to the congregation of Center Church that deaths in the United States "would be a certainty if a bomb were exploded over Europe where descendants of survivors would be more apt to marry people of our own country."

"We can be certain," he added, "that every explosion of an atomic bomb will introduce many genetic deaths, as well as abnormalities, into the germ stream of the human race. We can be equally certain that such mutations will not be permanently confined to any small geographic location."

## The Fox Squirrel

The American fox squirrel is the largest member of the squirrel clan, measuring about 25 inches in length. Usually red, they are sometimes albinos or coal black. Baby squirrels are born blind and remain blind for about five weeks.

## Five Persons Killed Upstate in Accidents

Albany, N. Y., Oct. 18 (AP)—Five persons, including two high school students, met accidental death in upstate New York over the weekend.

The deaths by communities: Syracuse—Ruth Virginia Tondur, 17, and Michale Bova, Jr., 17, automobile overturned, skidded across road and smashed into a pole.

Moers Forks—Louis Therian, 37, Ellensburg Depot, struck by automobile.

Troy—William Secora, 53, fell from porch of home.

Coxsackie—Charles Swartout, 72, burned to death in fire that damaged his home.

## Trailblazer-of cars to come!

Once in a blue moon the stylists and engineers outdo themselves. They create a car that goes beyond today and sets the pattern for cars of the future. This is what they have done with the FRAZER for 1949!

Low, sleek and differently handsome it is the trailblazer in style of cars to come. Its exclusive colors and fabrics have made the world's leading fashion designers fall in love with it. They call it "the dream car".

The same car, the FRAZER for 1949, has even won the hard-to-win hearts of the test drivers who must relentlessly punish a car mile after mile for weeks on end. They say the Frazer makes such driving no punishment for them. Its driving ease and riding comfort "make 600 miles a day a breeze," they say.

There's a thrill waiting for you at your dealer's tomorrow. With 100 new features, improvements and refinements, the 1949 FRAZER is ahead of its time... out front — trailblazing the way for all the cars to come. First to break clean and scrap tradition, the cars from Willow Run have done it again. Because unlike other "new" cars built since the war, they've road-proved their dependability—2 billion miles worth! Value-proved to a quarter-million justly proud owners. ## Edward Bonesteel Dies Suddenly Of Heart Attack

Edward W. Bonesteel, manager of Thomsons Laundry and a member of the Board of Public Works was taken ill today and was dead on arrival at Kingston Hospital shortly before 2 p. m. The Sheriff's office reported that they were informed that Bonesteel suffered a heart attack while hunting pheasants in the Hurley area about 1:30 p. m.

Bonesteel, about 60, was brought to the hospital in an ambulance, but was pronounced dead on arrival. He was for many years manager of the Thomsons Laundry in this city and a close friend of its manager, State Senator Arthur H. Wicks. When Senator Wicks was informed of Bonesteel's death this afternoon, the senator left Albany immediately.

On January 22, 1948, Mayor Oscar V. Newkirk appointed Bonesteel to the Board of Public Works. Bonesteel resides at 75 Wilson avenue.

**Milk Drivers Negotiate**  
New York, Oct. 18 (AP)—Five mediation agencies today joined in an effort to prevent a possible strike of 15,000 milk drivers and maintenance men which would shut off milk supplies to an estimated 11,000,000 persons in the New York metropolitan area. The agencies, representing the federal government, New York city, and the states of New York, Connecticut and New Jersey, met today with representatives of milk operators and five locals of the A.F.L. Teamsters Union.

**Judge Refuses Plea**  
New York, Oct. 18 (AP)—General Sessions Judge George L. Donnellan today refused to set aside death sentences for two men whom a third man, doomed in the same case, said were innocent. The testimony and affidavit by the third man were a "well-known trick of the underworld," the judge held. The three were convicted of the murder of Anthony Hinz, a boss stevedore, and sentenced to die in Sing Sing prison's electric chair.

**Weight Appointment**  
Washington, Oct. 18 (AP)—Ralph Whitely, a New York city official and the A.F.L. International Typographical Union, was reported today to be President Truman's choice for assistant secretary of labor. Labor circles expect the White House to announce the appointment soon.

**Miss Landi Still 'Serious'**  
The condition of Elissa Landi, actress and author, is unchanged. Kingston Hospital authorities reported this afternoon. Miss Landi, who in private life is Mrs. Curless Thomas of the Plank Road, has been reported "in serious condition" since her admission to the hospital a week ago.

**As Honest as the Years Are Long**

Mrs. John Matland answered her doorbell in Cleveland, O., and a woman thrust a package in her hands, then walked away. Inside, Mrs. Matland found a purse she had left on a streetcar 10 years ago, with the contents apparently undisturbed. Checking, she finds \$25 in cash, plus a rosary and other personal belongings.

The Ulster County District Council of Carpenters, A.F.L., October 14, 1948.

Local 1562 International Association of Machinists, October 14, 1948.

The resolutions that were adopted by these organizations were placed before the membership and after a full discussion regarding the merits of Proposition "A" the unions unanimously pledged their full support.

**The Joiners**  
District Deputy Frank A. Reis and staff will install the officers of Kingston Council, Knights of Columbus tonight. The meeting will start at 8:30 o'clock and refreshments will follow.

Kingston Lodge, No. 10, F. & A. M., will hold its regular communication on Tuesday evening at 7:30 o'clock in Masonic Temple, 31 Albany avenue. The first degree will be conferred on a class of candidates. Refreshments will be served.

Mount Horeb Chapter, No. 75, R. A. M., will hold its regular stated convention on Wednesday evening at 7:30 o'clock in Masonic Temple, 31 Albany avenue. The Past Master degree will be conferred on 10 candidates. Refreshments will be served.

**Right Leg Bruised**  
Peter Giannuzzi, 9, of 162 Clinton avenue received a bruised right leg when the bicycle on which he was riding collided with an automobile driven by Sidney W. Tabakman of 41 Catskill avenue at the intersection of Broadway and Hoffman street about 5 p. m. Saturday, the police reported. A taxi cab driver took the boy to the hospital for treatment, police said.

**Salvage Work to Begin**  
The Merritt, Chapman and Scott salvage boat, Chescent, accompanied by tugboats, arrived in the Rondout Creek this morning and began operations just below the railroad bridge. At press time today, the Chescent was being placed in position for salvage work in a location which, according to those acquainted with the creek, indicates that they will remove the old ferryboat hull which the army recently ordered removed as a hazard to navigation.

**Must Learn Soviet Ways**  
Prague, Czechoslovakia, Oct. 18 (AP)—President Klement Gottwald told the newly formed Political Instruction Corps in the Czechoslovak army today their task is the most important in the army. "Soldiers have to be taught the political importance of Marxism-Leninism and they have to be instructed in the brilliant military tactics of the Soviet army," Gottwald said.

**Bicycle Collision**  
Although his bicycle was damaged, Peter Kearney, 12, of 35 Orchard street was not injured when he collided with an automobile on Broadway about 4:40 p. m. Saturday, according to a police report. The automobile with which Kearney collided was driven by Howard Schimidich of Port Ewen, police said.

**About the Folks**  
Fried Schoonmaker, West Chestnut street, head teller at the Rondout National Bank, is a patient at Kingston Hospital following an emergency operation last week.

## T-H Law Rulings Are Studied By Bosses and Labor

**N.L.R.B. Interpretations Are Given; Mass Picketing, Hiring Reviewed**

Washington, Oct. 18 (AP)—Key rulings that the Taft-Hartley Act curbs mass picketing and sets up a yardstick for replacing strikers with new workers were studied by management and labor alike today.

The interpretations came from the National Labor Relations Board over the week-end. In one case N.L.R.B. Trial Examiner Irving Rogosin held that mass picketing can violate the act even if it is in the form of a peaceful parade.

Sheer numbers tend to coerce non-strikers, Rogosin said, so he recommended that the C.I.O.-United Electrical Workers and officers of Local 1150 and 13 be ordered to refrain from holding any more processions like that of November 21, 1947, in front of the Coney Corporation plant in Chicago.

The U.E. members had struck on November 1. Rogosin said it was clear to him that the procession "constituted mass picketing in aggravated form."

Unless the union appeals the Rogosin findings to the five-man N.R.E. in 20 days, the decision will have the effect of a board order.

The other ruling, setting forth at least five conditions under which "economic" strikers lose their jobs to permanent replacements was handed down by the board itself.

"Economic" strikers are those who walk out over pay or working conditions, rather than in protest against some unfair labor practice complaint against their employer.

In its latest ruling on the subject, the N.L.R.B. held that 71 strikers, members of the International Association of Machinists, are no longer entitled to reinstatement as workers at the Pipe Machinery Company of Cleveland; hence they were not eligible under the act to vote in a locally bargained election.

A recently bargained election in the election last March, but their ballots were challenged by the P.M. Co., independent union, an organization seeking to represent the new employees.

The board said it based its ruling on these points: (a) None of the strikers had an "unconditional" application for reinstatement; (b) the company notified them they would be replaced if they did not return to their jobs within four days; (c) the replacements all had been engaged in similar work; (d) they were recruited from the general area and (e) the company offered permanent jobs and accepted on that basis.

**Participation Is Asked**  
Paris, Oct. 18 (AP)—Argentine Foreign Minister Juan A. Bramuglia asked W. Averell Harriman again today to allow his country to participate in the European recovery program. He talked for an hour and a half with the secretary of the U.S. ambassador who is representative in Europe of the European Cooperation Administration (E.C.A.).

Argentine sources said Bramuglia was favorably impressed with prospects. The E.C.A. so far has refused to allow any dollars be spent in Argentina for the purchase of supplies for Europe.

**Fire in Automobile**  
A partly dismantled automobile in a yard at 179 Lincoln street was badly damaged by fire which apparently broke out in the upholstery about 1 a. m. Sunday, the fire department reported.

The automobile, a 1929 Chevrolet sedan, was owned by Herbert Buckman of the Lincoln street address, who used it for parts. The fire, which completely involved the interior of the automobile, was extinguished by use of a hooster line. Deputy Fire Chief James M. Brett reported.

**Wants Women Doctors**  
Washington, Oct. 18 (AP)—The navy wants women doctors. It announced today a plan for giving commissions to women doctors who have completed internships in civilian hospitals. In addition, it hopes to take 25 women doctors into navy hospitals as internes.

One of the first eight Wave officers sworn into the regular navy recently is a doctor, Lt. Col. Commander Frances L. Dougherty of Ft. Monmouth, N. J., a graduate of the University of Arkansas. She served during the war at the Naval Medical Center in Bethesda, Md.

**Merger Is Announced**  
Berlin, Oct. 18 (AP)—An almost complete economic merger of the three western zones of Germany was announced today. An agreement fusing the foreign trade of the French zone with that of the already merged British and American zones was signed by the three western allied military governors.

This united the economies of all zones except the Russian zone of Germany, save for a few activities which will be regulated by consultation among the British, French and Americans.

## Financial and Commercial

New York, Oct. 18 (AP)—Steels led a rally in the stock market today that pulled the list generally higher.

Gains were in fractions to more than a point among the leaders. Stocks on the minus side of the line held their losses to a point or less.

Trading was at a moderately active pitch on the rise. A number of large blocks of stock were traded, including several 10,000 share and one 15,000 share block of Commonwealth and Southern, unchanged.

U. S. Steel was the most active on the rally, and Bethlehem, Jones & Laughlin and National Steel all touched new highs for the year.

The oil group followed closely on the upward movement with Standard Oil (N. J.) the leader. The rails were slow in setting opening prices and turned mixed before joining the recovery move. Utilities also were slow in getting started and added modest gains.

Airlines, aircraft, motion pictures, motors, chemicals, and mail order and retail issues moved in a narrow range.

The best performers were Southern Railway, Nickel Plate, Santa Fe, Great Northern Preferred, Youngstown Sheet & Tube, Plymouth Oil, Gulf Oil, Mission Corp., Chrysler, Goodyear, Caterpillar Tractor, Westinghouse General Electric, Eastman Kodak, Owens Illinois, American Woolen, International Nickel, and Western Union.

The bond market advanced in a narrow range with the rails displaying the most activity. On the downside, most of the time were Vanadium, American Smelting, Union Pacific, Atlantic Coastline, and U. S. Gypsum.

## Late Bulletin

Pittsburgh, Oct. 18 (AP)—Henry Wallace today criticized the U. S. Atomic Energy Commission for refusing the C.I.O.-United Electrical Workers Union collective bargaining rights for workers in atomic plants.

The Progressive Party Presidential Candidate spoke to a crowd estimated by police at 3,500—mostly U. E. workers—at the Westinghouse Electric Corp.'s giant East Pittsburgh works.

He said he noticed in newspapers that David E. Lillenthal, chairman of the commission, "doesn't like the U. E."

"I say I would rather trust the U. E. than G. E. (General Electric Corp.)," Wallace added.

General Electric operates the atomic plants where the commission has refused the U. E. bargaining rights because the union's officers have not signed non-Communist oaths under the Taft-Hartley Act.

The Progressive Party candidate flew here from Detroit for a noonday talk at the East Pittsburgh works of the Westinghouse Electric Corp., a radio address and a speech at an indoor rally to-night.

Three city men and five men from Ulster county outside the city have been ordered to report for pre-induction physical examinations on October 27, it was announced today by Walter E. Dutcher, chief clerk of Draft Boards 18 and 19.

Notices to report have already been forwarded to the men, but the names will not be revealed until they have passed the examinations and are classified according to the announcement. They will report at local draft board headquarters in the Millard Building at 516 Broadway, from where they will be transported to Stewart Field, Newburgh, for examination.

Chief Clerk Dutcher emphasized that no call for men for actual induction into the armed services has been made. The purpose of the examination is to create a reserve of physically-qualified men in the IA classification ready for service when the call comes, he said.

The first men to go for examination have been chosen from the oldest men registered who are neither veterans nor fathers, he said.

**WOR to Dramatize Cerebral Palsy Sketch**  
A 12-minute dramatic sketch cerebral palsy will be featured on The Community Chest Show starring Kate Smith, to be broadcast over Mutual Network station WOR at 9:30 p. m. tonight. It was announced by Mrs. Arthur Larchan, president of the Cerebral Palsy Society of New York City, Inc.

The script for the dramatization was written by Alvin Boretz. Members of the Ulster County Cerebral Palsy Society today urged all area residents to hear this program, which will give information on this little-understood disease.

**Rails Board Created**  
Washington, Oct. 18 (AP)—President Truman today created an emergency board to investigate the dispute between the nation's railroads and 16 non-operating railroad unions. The unions are now taking a strike vote and creating of the board is intended to head off possibility of a walk-out. Under the Railroad Labor Act a work stoppage is forbidden while the emergency board is studying the dispute. Mr. Truman's executive order said the board would "threaten substantial interruption to interstate commerce" and "deprive the country of essential transportation service."

**Fire Is Extinguished**  
A fire in a living room couch at 110 Franklin street was extinguished by firemen at 2:48 p. m. Saturday. Deputy Fire Chief Harold Sanford reported. A cigar end dropped on the couch was the probable cause of the fire, he said. The house is a two-story frame dwelling owned by Arthur Markle, who occupies the first floor. Carlton Ekert occupies the second floor.

**10 Days in Jail**  
Ernest Vandermark, 41, of Ellenville, was arrested at Marlborough Saturday by Deputy Sheriff James Drago on a public intoxication charge. He was booked at the county jail following arraignment before Peace Justice Ralph E. Clark, who sentenced him to pay a fine of \$10 or spend 10 days in jail.

**New Ruling on Divorce**  
Washington, Oct. 18 (AP)—The Supreme Court today agreed to make a new ruling on the extent to which courts of other states may strike down a "quickie" divorce. The ruling was asked by Hermoine P. Rice, who said Connecticut courts improperly overturned a Reno divorce granted to Herbert N. Rice. She and Rice were married in Reno July 3, 1944, two weeks after he won a Reno divorce from Lillian P. Rice, of Woodbridge, Conn.

**Will Seek More Money**  
Washington, Oct. 18 (AP)—The Economic Cooperation Administration will ask Congress for more money to carry the European Recovery program until mid-1949. Edward T. Dickinson, director of program coordination, told a news conference today the E.C.A.'s \$5,000,000,000 intention to run it until next July will be exhausted some time in the first three months of 1949.

## Reconsideration Of Rondout Harbor Sought by C. of C.

The Kingston Chamber of Commerce has expressed dissatisfaction over the decision made recently by the U. S. Army Corps of Engineers, in connection with the Rondout Harbor improvement application. The directors of the chamber instructed their secretary to investigate the situation and transmit the findings to the army engineers. Mayor Oscar V. Newkirk also approved this action.

A canvass of interested parties indicated that they were not satisfied with the decision but felt that they have done all they can to bring about further improvement of the Rondout Harbor channel. The application asked for its extension to the docks of the Callahan Road Improvement Company, opposite Wilbur. The Chamber of Commerce has asked for a reversal of the recent unfavorable decision or at least a revision, which would permit part of the requested improvement.

## U.S. Asks Powers

Continued from Page One  
The United States would become the sole currency for the former German Reich, under four-power supervision, the four powers of foreign ministers would be called to meet on the whole German question.

Austin, commenting on a report drawn up by an atomic energy subcommittee, declared: "Communism states desire to live in a secret world of the own kind which, for all we know, they may arm and prepare their people for war. We do not desire to live in such a world."

"That is the impasse in which the United Nations Atomic Energy Commission finds itself. This is an impasse which can not be overcome by the Atomic Energy Commission."

Austin said the problem must be turned over to the United States, Russia, Britain, France, China and Canada for negotiations. An 11-nation atomic commission suspended work last May in a deadlock over control plans. Austin was backing a Canadian proposal, approved by a subcommittee, calling for turning the whole control problem back to the six original Atomic Commission sponsors to decide whether there is any basis upon which to resume efforts to try for control.

"It is because we so earnestly seek agreement, because we still hope for ultimate agreement, however dim the present prospects, that we strongly urge this course," Austin said.

## 'Forty and Eight' Will Help X-Ray Campaign

Local Volunte 381, Forty and Eight, will cooperate Tuesday and Wednesday in the chest X-raying campaign in the Fifth Ward this week. William Davis Hawk, chairman of publicity in that ward, announced today.

The engine of the Forty and Eight unit, will make tours of the ward both days in support of the health campaign, as a reminder to residents of the area that the mobile X-raying unit will be at Corlies House Oct. 20 and 21.

The drive, sponsored by the Ulster County Tuberculosis and Health Association, has met with outstanding results in other wards of the city, and all residents of the Fifth Ward are asked to appear for an X-ray on one of the two days.

## Case Is Adjourned

The case of Frank S. Albertini, 20, of 102 Broadway, who is charged with third degree assault and disorderly conduct, was adjourned by City Judge Matthew V. Cahill today until November 1. Albertini on October 6 pleaded guilty to the charges, which were brought against him by Peter Telespa, proprietor of the Holland Hotel, 608 Broadway. Telespa alleged he was struck in the face by the defendant on the morning of October 5.

## Disorderly Conduct

William McDay, 36, of Milton, was booked at the county jail Sunday on a disorderly conduct charge. Arrested by the State Police at Milton, he was arraigned before Peace Justice Philip Lyons of Milton and sentenced to pay a fine of \$10 or spend 10 days in jail.

## Deitz Funeral

Continued from Page One  
of the Kingston Veterans Association presided.

At the grave in Wiltwyck cemetery, the Rev. J. Dean Dykstra gave the committal service. Three volleys were fired over the grave by a firing squad from West Point and two were sounded by Sgt. Joseph Forie of Kingston, a member of the West Point band.

At the close of the ceremonies Gen. Hasbrouck presented the folded flag from the casket to Herman O. Dietz, the soldier's father.

Saturday night Joyce-Schrick Post, V.F.W., and its auxiliary attended in a body to pay their respects, and the Kingston Post, 150, American Legion, also attended in a group and gave their ritual to Sgt. Dietz as a member of Squadron 150, Sons of Legion.

Saturday afternoon the Rt. Rev. Mgr. Martin J. Drury, P.R.V.E., the Rev. Edward J. Farrelly and the Rev. John A. Flaherty called and paid their respects to the deceased.

Among the many sprays of flowers banked at the casket was one large wreath sent by the pupils of School No. 5 which Sgt. Dietz had once attended.

The following persons served on the honor guard Saturday and Sunday: From Ulster Detachment Marine Corps League, Members Mancuso, Mayone, Melville, Howard, Gleich, Cronk, Lang, Finnerty, Burkow, Honesteel, Fochs, Rifaldi, and Esposito.

From the 156th Field Artillery Battalion, National Guard, Sergeants Sidney North and Walter Bundy and Privates Robert Gorsline and Augustus Schwaninger.

From Joyce-Schrick Post, V.F.W., Vice Commander Sidney Lane, Edward Shaver, Harold Shultz, Philip Greer, Alvin May, William Hagendorf, Fritz Krammer, John Johnson, Ray Howe, Calvert Swart, Donald and Ralph Selim, Morgan Ryan and Howard Shurtner.

Text of Address  
Following is the text of General Hasbrouck's discourse:

"When diplomacy and other peaceful means of preventing war fail, then the survival of our country depends upon the personal bravery demonstrated by its men in uniform."

Today we are here to do honor to one whose bravery knew no bounds. I can say this with all confidence since I have personal knowledge of the act which won for Robert H. Dietz the highest honor within the power of a grateful nation to bestow—the Congressional Medal of Honor.

On March 20, 1945, the 7th Armored Division to which Staff Sergeant Dietz belonged and which I was privileged to command, was some 40 miles east of the Rhine. It was proceeding with all possible speed under urgent orders to capture the immense Edersee dam before the Germans could blow it, flood the Edersee river valley and thus block further progress of the United States First Army to the east.

Suddenly serious opposition developed. German troops freshly arrived from Denmark sought to block our advance at the town of Kircheln. It was here that Robert Dietz on his own initiative and with an unparalleled display of bravery and courage, singlehandedly ordered the road for his comrades to advance. You are no doubt familiar with what he did on this occasion—how all alone he killed the German defenders of two bridges, ripped the demolition charges from these bridges and then, as he signalled his comrades on, how he was killed by a volley from other enemy troops.

## Who? God!

In Memory of  
STAFF SGT. ROBERT H. DIETZ

Who has made the flowers fair,  
Here and there, and everywhere,  
God it is, in heaven above—  
So we'll thank Him, for his love.

All the rainbow colors true,  
Make the pretty rainbow hue,  
Yellow, orange, red and blue—  
Violet, green, and indigo too.

Who gives sunshine, wind and rain,  
Over hills the fields and plains,  
God it is, who in His love,  
Sends all good things from above.

Who gives us these soldiers brave,  
Who for us, their young life gave,  
Honor, honor, love we pay—  
God in heaven, their soul array.

—SOPHIE SCHMIDTKONZ

looking to us to make that victory secure.

They are looking to us, the living, to preserve and improve a peacetime America. They were realists. They knew that appeasement led to war. They would have us make America strong, not in military strength alone—although that of course is necessary—but by our own solidarity here at home and by the united front we present to a troubled world.

How can each one of us do his part? Why, by interesting himself in his country's problems, by freely acknowledging that the enjoyment of freedom also entails responsibilities on every citizen to preserve that freedom. We must understand that the position of world leadership which victory has brought us also entails responsibilities for keeping freedom alive in other countries of the western world. We must accept these responsibilities and the attendant sacrifices here at home with good grace. We must all work together for a strong America.

Actually all who believe in democracy must realize that they themselves constitute an army, and that their tasks are just as real as any which can be assigned on a battlefield.

And now, as we take leave of this brave soldier—Staff Sergeant Robert H. Dietz, 7th Armored Division, United States Army, Medal of Honor—we pay homage, as he would have us do, to all his fallen comrades. Proudly, but sadly, we honor them. May they ever rest in peace.

## HOME BUREAU

### Tour Is Planned

The Ulster County Home Bureau has extended an invitation to the public to join the members on a tour next Friday, October 22, to inspect the accomplishments of the homemakers in the Rondout Valley. The homes visited will show how some families have solved or are proposing to solve problems in remodeling of homes and kitchens as well as to see the accomplishments of members in stencilled and refinished furniture.

The tour will start at 10 a. m., rain or shine, from in front of the Stone Ridge Methodist Church. All persons attending are requested to bring their lunch. Dessert and coffee will be served by the ladies of the Ellenville Methodist Church.

### Lomontville Unit

The Lomontville Home Bureau unit will meet Thursday at 10 a. m. at the Community House. Lesson one in plastic bags will be taught to group one by Mrs. Walter Vollmeke, leader. All are asked to bring lunch. The regular business meeting will be held in the afternoon followed by a talk on citizenship by Mrs. Carl Dedy, leader.

### Cranberry Jelly

Cranberries, now coming on the market from this fall's near jelly because they are tart, rich in pectin and bright in color. The Ulster County Home Bureau says that it takes less sugar in proportion to fruit juice and less cooking to make jelly from cranberries than most other fruits.

For those homemakers who want to put up homemade jelly for Christmas gifts or home use while fresh berries are plentiful this fall, home economists of the U. S. Department of Agriculture offer the following recipe: Ingredients one quart (one pound) of cranberries; 1½ cups water; two cups sugar. To make—pick over berries, discarding the withered, soft or damaged.

Cook berries and water rapidly in covered saucepan about 15 minutes or until berries are soft. Strain through a fine sieve, add sugar, stir and cook about 3 minutes, or until the liquid gives the two-drop test from a spoon. Pour into jelly glasses. When cool and set, seal with paraffin.

Other fruits expected to be abundant generally on markets in November are apples, citrus fruits, including oranges, grapefruits, lemons, grapes, winter pears and the dried fruits—prunes, raisins, and figs.

The vegetables listed this fall include carrots from a crop one-half larger than last year, cabbage, Irish potatoes and onions. Oat products also will be plentiful, not only for breakfast porridge but for muffins and other nourishing breads and cookies for dessert and the lunch box; those good sandwich spreads, peanut butter and honey continue plentiful.

atmosphere of distrust which now surrounds the negotiations between the western powers and the Soviet Union. My emissary was to convey the seriousness and sincerity of the people of the United States in their desire for peace.

"This proposal had no relation to existing negotiations within the scope of the United Nations or the Council of Foreign Ministers. Far from cutting across these negotiations, the purpose of this mission was to improve the atmosphere in which they must take place and so help in producing fruitful and peaceful results."

"At this time I want to make it clear that I have not departed one step from my determination to utilize every opportunity to work for peace. Whenever an appropriate opportunity arises, I shall act to further the interests of peace within the framework of our relations with our allies and the works of the United Nations."

"He said the United States will spare no effort to achieve the peace on which the entire destiny of the human race may depend."

"The United States policy 'is not now and never has been directed against the Soviet Union,' the President said.

"On the contrary, we recognize that the peace of the world depends on increasing understanding and a better working relationship between the Soviet Union and the democratic nations."

"The firm position this nation has taken, he continued, 'should not be mistaken for warlike spirit.' A firm position 'on reasonable grounds offers the best hope of peace.'

Mr. Truman said the United States never will 'be a party to the kind of compromise which the world sums up in the disgraced name of Munich.'

The President reviewed foreign policy moves of the past two years which he said have been aimed at creating 'a political and economic framework' for lasting peace.

He listed three major moves: military aid sent to Greece and Turkey, the European Economic Recovery Program, and joint action with Great Britain and France in setting up an economic organization for the western zones of Germany.

"It is plain," he said, "that world peace and economic recovery cannot be achieved in an atmosphere of political disorder and revolution. We have therefore felt it essential to help stabilize nations which welcomed our aid, and whose democratic traditions or aspirations invited our friendship."

Mr. Truman held out no hope for an early settlement of international difficulties. While the United States 'utterly rejects' war as a solution to world disputes, he said, it is 'realistic about the alternative to war.'

"In international politics, new and serious difficulties are continually arising," he said. "It will be a long while before the great powers constitute the friendly family of nations which is often described as 'one world.'"

The President called for patience. Rivalry among nations "is an old story," he said, and history shows that "rival powers can exist peacefully in the world."

"When the destiny of all mankind is at stake," he said, "we need to exercise all the patience we can muster. We should utilize every opportunity to strengthen the United Nations for the great undertakings which lie ahead."

## Why your telephone means even more to you today

There are lots of "hidden values" in your telephone service that can't be measured entirely in dollars and cents. There's the comfort, convenience, and peace of mind it brings you. And, too, the speedy tempo of modern business is made possible, to a large degree, by modern telephone service.

All these hidden values grow every time a new telephone is added to the Bell system. For it's pretty obvious that the more people you can talk to, and who can talk to you, the more your telephone service is worth.

So you'll be interested to know that, since V-J Day, more than one million telephones have been added in the state-wide territory we serve. The last previous addition of one million telephones took eighteen years! Today your telephone is worth more to you than ever before. And it's our aim to see that the value of your telephone service continues to increase with each passing year.

★ ★ ★

HERE IN KINGSTON we've added more than 3,800 telephones since V-J Day, making a total of 13,300 now served from this office. During that same period, the number of calls has increased from 48,000 to 65,000 a day. You'll be glad to know that recent additions to our switchboard have enabled us to provide telephone service for everyone on our waiting list—and that we're keeping a careful record of all applications for a better grade of service. These will be filled just as soon as sufficient additional equipment is available.

## Austria Accuses Communist Bloc Of Isolationism

New York, Oct. 18 (AP)—The Communist-dominated bloc in the United Nations was accused of "sterile isolationism" yesterday by Warren Austin, permanent American delegate to the U.N.

Austin spoke by transcription from Paris for ceremonies at Rockefeller Plaza, opening a United Nations week festival. "The bloc is proving its power here in Europe as well as at home," Austin said. "The cooperative efforts for economic recovery are beginning to bring results."

"The day will come when the minority will see the value of sharing in the general good and will forsake their position of sterile isolationism."

Assistant Secretary of State George V. Allen told a crowd of more than 2,000 at the plaza that the United States is the only nation in a position to lead in building a strong U.N.

"We alone have sufficient power and detachment to enable us to do so effectively," he said. "Without our support, no nation or group of nations could make the United Nations effective."

Clarence Francis, chairman of United Nations Week and chairman of the Board of General Foods Corporation, stressed the slogan for the week—"We can work it out together or fight it out alone."

## Pitching Horseshoes By Billy Rose

Last night I dined at "21" with a Wall Street wizard whose advice has cost me many a buck in recent years. After lip-reading through the menu, I settled on fillet de sole avec pomme de terre Anglaise, better known as fish and chips. But my friend didn't even look at the menu. He ordered a vegetable plate—spinach, beets, kale and okra.

"I don't know you were a masochist," I said. "I'm not," said the broker. "The predilection for greens is the result of my meeting up with a beautiful woman."

"If you can tear yourself away from the okra," I said, "I'd appreciate the details."

"Very well," said the wizard. "It's the least I can do after telling you to buy Paramount last year. To begin with, do you recall a show girl named Trudy Hollister?"

"If I remember rightly," I said, "the lady had a figure-8 figure and used to display it behind the third G-string from the left in one of Earl Carroll's 'Vanities.'"

"Right," said the broker. "But in addition to good looks, Trudy had other things to recommend her. She didn't drink, smoke, chew gum or accept gifts from gentlemen, and to top it off, she was a vegetarian and an anti-vegetarian."

"She sounds like a nice girl to have for an aunt," I said. "That's the way I felt about her," said the broker, "when Earl first introduced me to her twenty years ago. I was what you might call a big steak-and-stein man in those days, and with so many charming meat-eaters around I saw no point in wasting time on this fruit salad fanatic."

"Some of my pals, however, felt differently about Trudy and gave her a whirl, but they soon got discouraged. As one of them put it, 'How can a guy get chummy with a gal whose idea of a big evening is a roasted maitre and a platter of zucchini?'"

"I gather you finally went up against the paragon yourself," I said. "That I did," said the broker, "and with good reason. One night several members of the wolf pack were cutting up touches at Tony's, and we got to discussing Trudy and how no one had been able to interest her in life with a capital L. Maybe it was the Vermont, but I started to brag about how good I was in the romantic department, and before you say 'Jack Legs Diamond' I had her for a thousand dollars each that I could get Trudy to like me well enough to accept a mink coat as a present. We were to pay off at a New Year's Eve party in my apartment."

"Did the lady vegetarian go for your applesauce?" I asked. "Trudy was as good as her reputation," said the broker, "and when I offered her a fur coat, she laughed and told me to stop reading F. Scott Fitzgerald. Her cloth coat kept her plenty warm, she said, besides which she didn't want the massacre of forty animals on her conscience."

"Well, up until a week before New Year's, it looked as if my dough were down the drain. And then one day, in desperation, I said to Trudy, 'I'm going to give you the coat anyhow, and when you see it, maybe you'll change your mind.'"

"Trudy thought about this threat for a while and then said, 'All right, if you insist, but I'd prefer to buy the mink myself.'"

"I wrote her a check for the amount of the bet, and knowing the kind of a girl she was, I was sure she wouldn't go back on her word."

"Did she?" I asked. "She did not," said the broker, "but you're way ahead of the story. On New Year's Eve everything was ready—the bettors, the paper hats, the champagne and the cold cuts on the sideboard. But Trudy didn't show up until almost midnight, and when the doorman finally announced her, he said that due to unusual circumstances, he couldn't let her up."

"My pals and I made a bee-line for the street, and on the sidewalk in front of my apartment house we found Trudy, surrounded by a yelling crowd."

"The doorman won't let me in with my new fur coat," she yelled over the heads of the mob. "I pushed through, and the first thing I saw was that Trudy was wearing her old cloth coat. Then I noticed a leash in her hand and what looked like dozens of brownish rats playing around her feet."

"What in the name of the five Ringlings are those?" I asked. "Rats," said Trudy. "I went out to Jersey this afternoon and bought them at a mink farm."

"Pay up," said one of my pals. "Without a silk lining, a mink isn't a fur coat."

"But Trudy is going to make a coat out of them," I said. "How come you say such a thing?" said the girl. "Would you want me to start the New Year with the blood of these darlings on my hands?"

"That's a cute yarn," I said to my friend, "but it doesn't explain your cute okra."

The broker smiled and got to his feet. "I'm afraid I haven't time to go into that part of the story," he said. "I have a date to take my wife to a 9:30 movie, and Trudy wouldn't like it if I kept her waiting."

pro-Wallace editors? How many executives in your office are for Henry Wallace?

And what are the politics of those great journalists, Bruce and Beatrice Blackmar Gould, the big editors? Presumably to speculate, now that they have invited speculation, and remembering their long intimacy with the Great Gabbo I would guess that they were two of the seven who are going to vote for Wallace. Yes, I would guess that the editors of the Ladies Home Journal, which rakes in millions of dollars every year from American big business, are two of the seven who favor the drooling slob who didn't dare say whether he did or did not write the idiotic Guru letters to the Oriental Mahatma whose disciples thought they could cure a broken leg by chafing it on one of his snowshoes.

Of course, I noticed that in making the coquettish announcement the sly and artful Bruce and Beatrice wrote that Mr. Gould had "dubbed" Bubblehead Wallace and Glen Taylor, his running-mate, the "Gurusome Twosome." Frightfully clever chap, Gould.

That seems to "poke fun" at Bubblehead doesn't it? Pulling his leg. Spoofing. That sort of thing. But I still think B. and B. were kidding the public because, while that crack about the "Gurusome Twosome" (laughter and cries of

"Oh, I say") may seem disparaging, still, to the extent of its political power, without coming right out for Wallace, the Ladies Home Journal gave Bubblehead a great plug. It printed a jovial picture of him and Taylor two columns wide, and led off the "About Town" section with the announcement of the votes of its seven editors for the Kremlin's candidate for President of the United States.

I guess also that the editorial policy of the magazine itself is more pro-Wallace than anti, and I think it beats the devil how a sincere capitalist magazine could abide on its editorial council seven supporters of a candidate in common with Josef Stalin.

And I guess the dull, dumb, stupid, glib magnates to whom we sucker investors in the stock of great corporations entrust our business must be pretty near hopeless, after all.

You never know who your next door neighbor is. For a good many years I have been interested in the fight against cancer, especially cancer in children. Recently I was surprised to learn that Ed Wolner, who publicizes bridge tournaments, is the author of the new book entitled "The Damon Runyon Story," published by Longmans Green & Co., New York. Wolner very generously is arranging for one-third of the royalties to go to the fight against cancer.

One of Damon Runyon's favorite games was kalabraz, and he used to claim that few people knew how to spell it, let alone play it. Wolner does not claim to be a bridge player, and such things as safety plays and finesses are just tools for the expert, so far as he is concerned. He said that it was purely coincidental that he played today's hand well.

He won the opening lead of the jack of hearts with the ace. Now most bridge players probably would go over to dummy with the ace of diamonds and try to finesse the diamond, which would lose the contract. But Wolner laid down the king of diamonds and then led a small diamond. When the queen of diamonds fell, the jack became his ninth trick.

As it happened, the way that Wolner played the hand was correct. You should cash the king of diamonds and then the ace, because all you are hoping to do is to establish an extra diamond trick.

### DAR Commemorates Burning of Kingston At Chapter Day

October 16 designated by Wiltwyck Chapter, Daughters of the American Revolution as chapter day commemorates the burning of Kingston by the British, October 16, 1777. This event was celebrated Saturday at 2:30 p. m. at Wiltwyck Chapter house by a large attendance of D.A.R. members. Mrs. Maynard Mize, regent, gave an address of welcome and spoke of her interest and association with Hurley, the village which had much to do with the burning of Kingston.

Miss Jean Louise Wells played two piano selections, "Hungarian" by Hauser and "Waltz Sentimental" by Schubert.

Mrs. Warren A. Russell, program chairman, introduced Mrs. Herbert C. Foster who read the minutes of the first Chapter Day celebrated in 1893, when Miss Mary Isabella Forsyth, founder of Wiltwyck Chapter was regent. Miss Mary S. Burhans was historian.

That 118th anniversary was an all day affair. The morning was spent in meeting and welcoming the dignitaries. At 1 p. m. a luncheon was given by Miss Forsyth in honor of General

had sheltered the refugees on October 16, 1777. In the evening at the state armory, a large meeting was held at which the general gave addresses concerning the revolutionary war.

Following the reading of these minutes, Miss Agnes Scott Smith gave a talk on "They Fled to Hurley." Miss Smith began by saying that October 16, 1777, 171 years ago, Kingston was not prepared to defend itself against the British who had come up the Hudson and landed on the north bank of the Rondout Creek, because all of the able bodied men and boys were serving with Governor Clinton near Newburgh. Governor Clinton was trying to protect the Capital of the state from that area where the British were expected to attack.

Great stores of munitions and food were stationed in Kingston. These the British seized before they put the torch to the town, then of 4,000 inhabitants, Miss Smith reported. All houses except the Van Steenburgh House on Wall street were burned to the ground along with 103 barns, 46 barns, 17 store houses, the church, academy and court house. Old men and women, those sick and infirm, the children, slaves, frightened and bewildered, with carts piled high or carrying anything that could be salvaged made the long hard trek to Hurley, Miss Smith said.

This was a difficult flight because of the sandy, rutted roads, thick woods, two steep hills and four brooks and swamps that had to be crossed. The people of Hurley sheltered all of these refugees in their houses, barns or sheds and Hurley became the capital of the state for the next few months.

Miss Smith told about the settlement of New Dorp in 1682, how it was raided and burned by the Esopus Indians in 1683 and rebuilt in 1689. The cabins were replaced by stone houses and the name changed to Hurley.

At the close of the program Saturday afternoon, Mrs. Russell led the members of the chapter in the "Flight to Hurley" to the home of Mrs. Stanton A. Warren, who lives in one of the old stone houses. A pleasant social hour and tea under the auspices of the entertainment committee of which Mrs. Charles A. Terwilliger is chairman, was enjoyed. Mrs. G. N. Wood and Mrs. Burdette R. Tuttle poured. The table was decorated with fall flowers and candles.

Greetings were extended to Mrs. Mize, regent, whose birthday falls on that of this historic event.

### Richard L. Ransom, Andrea A. Thorp Wed in Des Moines

The wedding of Miss Andrea A. Thorp, daughter of Mr. and Mrs. Alfred Thorp, 3915 Forest avenue, Des Moines, Ia., to Richard L. Ransom, son of Mr. and Mrs. A. L. Ransom, Malden-on-Hudson, took place Sunday at 4:30 p. m. at the home of the bride's parents. The Rev. Clifford C. Bacon, pastor of the First Methodist Church, Des Moines, performed the double ring ceremony.

Miss Myrtle Mainquist played the traditional wedding music and sang "I Love You Truly." The setting for the marriage was arranged before the fireplace with decorations of autumn flowers. Mr. Thorp gave his daughter in marriage. She wore an ivory satin gown made with cap sleeves and jewel neckline. She wore a fingertip veil and carried white and yellow roses with satin streamers.

Mrs. Robert Nelson of Chicago, Ill., as matron of honor wore a light blue gown of embroidered organza over satin. Her daughter, Andrea Polson, as flower girl, wore a light blue gown of organza over taffeta. Both carried colonial bouquets.

James B. Copeny of Iowa, Kas., was best man. The reception for 30 guests was held immediately following the ceremony. Mr. and Mrs. Ransom left by automobile for a wedding trip to Malden-on-Hudson. They chose for traveling a brown tweed suit with wine accessories. They will live in Malden.

Mrs. Ransom is a graduate of Roosevelt High School, Des Moines. Mr. Ransom is a graduate of Saugerties High School and Moran Business School, this city.

### DeLuca-Diamond Wedding Takes Place Before Nuptial Mass

Miss Bernice Jean Diamond, daughter of Mr. and Mrs. Joseph Leo Diamond, 67 West Union street, became the bride of Vincent Peter DeLuca, son of Mr. and Mrs. Joseph P. DeLuca, 58 Prince street, Saturday at 9:30 a. m. before a Nuptial Mass in St. Mary's Roman Catholic Church. The Rt. Rev. Msgr. Martin J. Drury officiated at the double ring ceremony. He was assisted by the Rev. Joseph C. Connor of Our Lady of Lourdes, New York city.

Theodore Riccobono was organist. Martin Kelly sang "Gloria Ave Verum" and Francis Panis Angelicus. Autumn garden flowers were used for the church decorations.

The bride was escorted by her father. She wore an ivory satin gown designed with scalloped neckline, long pointed sleeves, fitted bodice and full train edged with point Venice lace and draped from a peplum. Her French illusion veil was attached to an ivory satin tiara trimmed with white ostrich tips. She carried a white satin prayer book with white orchids.

Mrs. Leonard N. Avery of Connelly was matron of honor for her cousin. She wore an American beauty taffeta gown with headpiece of matching ostrich tips. She carried an American beauty muffed mounted with yellow pompons. Esther Marie Kreminski of Fairview, N. Y., cousin of the bride, as flower girl, wore a dusty rose taffeta gown with bonnet trimmed with matching ostrich tips. She carried a princess basket of Pinocchio carnations and yellow pompons.

Gerald Smith was best man. Ushers were Joseph L. Diamond, Jr., brother of the bride, and Leonard N. Avery, Connelly, cousin of the bride. Ronald and Robert Diamond, brothers of the bride, acted as servers during the Mass. Thomas Daley was ring-bearer.

A reception for 80 guests was held at the Alpine. Music was provided by Rodney DuBois and his orchestra. Mr. and Mrs. DeLuca left by automobile for a wedding trip to Cape Cod and Boston. The bride wore a navy blue English serge suit with navy and royal blue accessories.

Mrs. DeLuca was graduated from Kingston High School and is bookkeeper at DeLuca Cleaners. Mr. DeLuca, also a graduate of Kingston High School, is associated in business with his father in DeLuca Cleaners and Dyers.

## Ode to the Seasons

By FRANK TRIFF

Battening down for winter, putting away the boats and breaking camp is a sudden annual event. It's a particular job, too. One has to know his stuff or pay for his ignorance. You don't just walk out and turn the key; not up-country where blizzards soon will blow. Sometimes those who learned the hard way are amazed at things the tenderfeet do to protect themselves and their property. Rarely do the uninitiated seek advice, much as cocky pioneers like to give it.

Self conservation is a main activity around lake and mountain places and life becomes one continuous round of conversation about how to do this or that, with witty comment on the other fellow's futile ways to cope with nature.

ONE TIME we had a bad flood at our point. Two buildings were washed into the lake, others were wrecked; docking, bridges, automobiles, furniture, et cetera, were lost.

One of our good neighbors who took haven at our house was told at the height of the flood that his automobile just washed away.

"Couldn't have been mine," he said. "I tied it to the porch." He did, with a clothesline. Automobile, porch and clothesline have reposed for 13 years now, a couple of hundred feet down in Seneca Lake.

BUT IT DOESN'T take a flood to challenge ingenuity and inspire eternal vigilance around Seneca's rugged shores.

We can say unusual things of old Seneca, however. This sturdiest of the Finger Lakes is 35 miles long, up to three miles wide and 634 feet deep. Half of its bottom lies below sea level. It rarely freezes at our end, the only Finger Lake which doesn't. That makes ice-crushed docks and boat houses the least of our worries.

That its water doesn't freeze, expensively deceived one trusting motorist. He wheeled into a garage one zero morning with a cracked cylinder block.

"It must have been defective," he told the garage man. "It couldn't have frozen; I put Seneca Lake water in it."

WHEN OUR NEIGHBORS shutter up, tote their children and other freezables to town, we are lonesome. A pain in the heart and that void in the stomach feeling comes over us. Another of our few remaining Summers has passed. We stick around long as we can, often till snow flies.

Fanny says she hates fall. It's a symbol of death to her; when the leaves drop, when her flower garden withers under frosts and we move back to the city.

There's a happier way to think of it, I tell her, appealing to her love of marathon sleep. Though Autumn and Winter brings an end to our greatest joy of living, to me it's just a recess. Nature goes to sleep to be refreshed, so to shine the brighter, come the next glad season.

THOSE WHO LIVE where Summer prevails eight or better months a year can boast of ease not known to states that brave the seasons. But they miss something, too; a good miss to the timid, the sick and the old, yet half of life to those who can take it.

When water skis are put away, snow skis come out; when the swimming float is hauled up, the bob sleds get dusted off. The lawn mower is stored where the snow shovel stood; screens come down and storm windows go up. The kids pray for snow early as October, while their elders tell 'em some day they won't.

IT'S TIME to get ready for a tough winter. Halloween pumpkins yellow in corn stalk fields; turkeys are strutting their last strut and the goose is getting fat.

Ere long we'll be warned, "Only 28 shopping days to Christmas" and before we know it a bearded old man with a scythe will signal the passing of another year.

So 'round and 'round we go, from season to season. For my part I'm glad to be here for them all; and like to live where the seasons make themselves known: be it steel and rain of Spring, bud and flowers of Summer, color and zest of fall, or the snow and cold of York State Winters.

Probably it's because I expect to be warm a long time in the next world.

Garter Shockers.

Changeabout Bib.

Breath-taker.

Melon Muff-bag.

New York (NEA) — Details designed to make you look twice at 'The Look' this fall include a few outright breath-takers.

Take the "breath-taker" neckline, for example, which unbutton, as shown bottom right, all the way down to here. This neckline adds a provocative décolletage to an otherwise cover-up type of dinner dress of Adele Simpson's design, which has a top of black velvet, a skirt of mezzotint satin.

sparklers. The pair pictured top left are golden garter clips with which designer Brownie decorates the pockets of a green woolen suit.

"Doll" muffs of fur that double as handbags rate a second look when they zip open like a melon cut in two. The leopard bag, bottom left, is one of a series which Richard Korset has designed for wear with fur-trimmed ensembles.

Eye-bling color enhanced by cut-steel embroidery puts removable wool, plastrons or bibs, en-

sembled with dark basic dresses, high on the list of the season's glance-getters. The red plastron, shown top right with a gray crepe dress of Anna Miller's design, is tab-tied under the arms for easy removal when the basic dress needs to be stripped for a change of accessories.

## EAT WELL for Less

### Ginger Pudding Is Budget Dish

By GAYNOR MADDOX  
NEA Staff Writer

Budget menus can be delicious menus with careful planning, based on markets, family preferences and good cooking practices. This festive pudding, for example, can make any low-cost meal seem like a gala event:

Steamed Ginger Pudding  
(Makes 10 small servings—5 large ones)

One egg, beaten; 1 cup sugar; 1 cup milk; 1½ tablespoons powdered ginger; 2 cups sifted flour; 4 teaspoons baking powder; ½ teaspoon salt; ¼ cup finely chopped suet, sauce.

Beat the egg in the mixing bowl, very light; add sugar slowly, beating constantly. Add the milk the same way. Sift the ginger, flour, baking powder and salt together three times. Sift this into the egg mixture a little at a time, beating well; add the suet. Stir well until smooth, 3 to 5 minutes. Pour into a well-greased baking dish or large mold; cover the mold and steam 2 hours. Or if baking dish is used, bake in a moderate oven (350 degrees F.) 35 to 40 minutes. Serve with cream, whipped cream or hard sauce.

Here are some carefully planned budget menus:

Dinner: Meat and noodle casserole, lima beans, parsley carrots, bread, butter or fortified margarine, Spanish cream, coffee, milk.  
Dinner: Savory fish scallop, parsley potato balls, green peas,

red cabbage relish, bread, butter or fortified margarine, plum turnovers, coffee, milk.

Dinner: Vegetable soup, puffy Spanish omelet, peas, parsley potatoes, cole slaw, bread, butter or fortified margarine, plum pie, coffee, milk.

Dinner: Chipped beef à la king on hot cornbread squares, broiled eggplant, carrots, celery strips, bread, butter or fortified margarine, orange ambrosia with custard sauce, coffee, milk.

### TOMORROW'S MENU

Breakfast: Stewed prunes, oatmeal, enriched toast, butter or fortified margarine, marmalade, coffee, milk.

LUNCHEON: Vegetable chowder, plain crackers, chopped egg and celery sandwiches on whole wheat bread, gingerbread, tea, milk.

DINNER: Poached filets of fish, Spanish sauce, parsley potatoes, chopped spinach, enriched bread, butter or fortified margarine, cole slaw, fresh fruit gelatin, coffee, milk.

## Wiltwyck Club Crowns Third Straight Champ

Maurice Davenport, popular Wiltwyck Golf Club champion, parlayed a magic putter and a steady, determined game into the 1948 Kingston City golf championship Sunday when he defeated John Van Gonsik, Twaalfskill Golf Club kingpin, 3 and 2, in the 16-hole playoff.

About 100 golf fans from both clubs saw Davenport achieve his title on Van Gonsik's home greens with a birdie-4 on the 34th hole, but it was a red hot putter responsible for three spectacular birdies that really decided the issue between these two evenly matched amateur stars. One was a 45-footer, the other two from 25 feet.

## Notre Dame and Michigan Top Contenders For National Title

New York, Oct. 18 (AP)—Michigan and Notre Dame, sailing along on the longest winning streaks in college football, were back in their familiar roles today as the leading candidates for national honors.

The list of unbeaten, untied teams numbers 11, still an imposing array, but the schedules seem to favor those two mighties from the midlands who finished last season 1-2 in the Associated Press poll.

The East, cradle of the sport, can no longer dominate. In four of the unblemished representatives in Army, Cornell, Pennsylvania and Penn State, but they seclude themselves in a round-robin that is likely to leave all of them scarred.

A better shape are the unblemished — Georgia Tech, North Carolina and Clemson from the heart of Dixie, and California and Nevada from the Far West.

### Southerners Set

The three southern teams fortunately don't run into each other and wind up their schedules against sectional foes. California plays a strict Pacific coast card the rest of the way. Nevada, the little team that leads the nation in offense, doesn't meet opposition of the size to warrant much national consideration.

Two of the unbeaten collide this coming Saturday when Army meets Cornell at Ithaca. They have won four games each, yet remain something of an unknown quantity.

Michigan's Wolverines graduated from the question-mark class Saturday with a resounding 28-0 conquest of Northwestern. They proved they could still get along without All-American Bob Chapuis and Bump Elliott. They just tossed the ball to a named Leo Kocsaki and he scored three touchdowns.

It was Michigan's 18th in a row. Notre Dame also turned in a professionally poised performance in subduing Nebraska, 44-13. Nobody seemed to miss Johnny L. Juchas as the Irish went through their 22nd game without a defeat.

### Tar Heels Pushed

North Carolina's big, talented team—No. 1 in the AP poll last week—fell short of expectations when it ran up against an aroused family rival, North Carolina State. The Tar Heels put on a last half push to get a 14-0 victory.

California's Bears were impressive in scoring their fifth straight triumph—a 42-0 rout of Oregon State—but it'll take tougher meat to show just how good the Bears really are.

Army, led by Gil Stephenson, trounced Harvard, 20-7. Penn squeezed out a 24-14 last minute victory over Columbia. Penn State won over West Virginia, 37-7. Cornell smothered Syracuse, 34-7. Penn and Penn State were unbeaten last year, too.

Georgia Tech, operating one of the cleverest ball-handling teams in the country with its razzle-dazzle, defeated No. 4, Wake Forest, 27-0. After Florida this week, Tech meets Duke, Tennessee and Alabama on successive Saturdays—a mean row. Clemson was idle.

Nevada kept its slate clean by licking St. Mary's Gaels in a Sunday game, 48-20.

### Tulane Upsets Ole Miss

Mississippi, the Southeastern Conference champion, and Maryland went through three games with out having its goal line crossed, were Saturday's upset victims.

Ole Miss was whipped by a re-surgant Tulane, 20-7, while Maryland bowed to Duke, 13-12. Detroit lost its first game to Miami (Fla.), 6-0.

Stanford fashioned a major reversal of form on the coast by lashing a favored U.C.L.A., 34-14. Oregon established itself as a co-favorite with California by trimming Southern California, 8-7.

Southern Methodist bounced back from its loss to Missouri and walloped Rice, 33-7. The Mustangs still figure to be one of the nation's best.

### Other Important Results:

East—Dartmouth 41, Colgate 16; Pittsburgh 21, Marquette 7; Rutgers 22, Princeton 6; Brown 14, Holy Cross 6; Missouri 35, Navy 14; Wake Forest 41, Duquesne 15.

Jerome Davis, Chicago Cardinals back, picks up nine yards in first quarter of Cardinals-New York Giants game at Polo Grounds, New York. Bearing down for the tackle are John Cannady (52), center; Bill Schuler (75), tackle, and Len Younce, guard, of the Giants. Also identifiable are Paul Walker (86), Giants end; and Charley Trippi (62), Cardinals back. The Chicago Cardinals, N.F.L. champions, swamped the Giants, 63-35.

## Cards and Giants Set Records In 63-35 Spree at New York

New York, Oct. 18 (AP)—The fight for sectional honors in the National Football League and in the Western Division of the rival All-America Conference is growing more tense with the passage of each game.

In the National League the Chicago Bears pace the Western Division by one game while the Philadelphia Eagles lead the eastern half by only half a game.

The San Francisco 49ers, riding the crest of an eight-game winning streak, enjoy only a half game lead over Cleveland in the All-America's Western Division race. In the Eastern Division, the Baltimore Colts are two games in front of the runner-up New York Yankees and Buffalo Bills.

### Bears Crush Lions

The Bears crushed the Detroit Lions, 28-0, yesterday to stay in front of the defending champion Chicago Cardinals. The Cards ripped the New York Giants, 63-35, in the highest scoring game in N.F.L. history.

Philadelphia, defending eastern kings, trampled the Washington Redskins, 45-0, to gain sole possession of first place from the Skins and Pittsburgh Steelers. The Steelers were beaten, 13-7, by the Boston Yanks and now are tied with Washington for second place a half game behind the Eagles. In the other National League game the Green Bay Packers blanked the Los Angeles Rams, 16-0.

The 49ers, sparked by Frankie Albert, turned back the Yankees, 21-7, to keep their record clean. The defending champs, the Cleveland Browns, remained hard on the 49ers heels by thumping the Buffalo Bills, 31-14 for their seventh victory without a loss.

### Sid Luckman's six-yard touch-

down pass in the first period was all the Bears needed to down the hapless Lions who now have lost four straight. The triumph was the Bears' fourth in as many starts. They are the only unbeaten team in the National League.

### 49 First Downs

The Card-Giant touchdown parade, which totaled 98 points, broke the league record of 87 points tallied on Sept. 28, 1947 when the Eagles turned back Washington, 45-42. The two teams also made a total of 49 first downs to create a new mark for most first downs in one game by both teams.

Pat Harder of the Cards set an individual mark by booking nine conversions. The old mark of eight was held by Bob Snyder of the Bears.

Ray Molloff pitched four touchdown passes to spark the Red Bird attack before 35,342 fans at New York. Charley Conerly figured in all of the Giants' scoring. Conerly threw four touchdown passes and scored another on the ground.

Across the river at the Yankee Stadium, Albert steered the 49ers to victory over the Yanks. The brilliant quarterback passed for one score, sneaked across with the second and set up the third with a 21-yard run and 28-yard pass before 29,743 fans.

## SHOKAN

Shokan, Oct. 18—Emerich Lukacs, local World War 2 veteran, has been appointed chairman of the decorations committee for the Olive Branch ball which will take place Saturday evening, Oct. 23, at the Town Hall.

The Haver garage and salesroom looks spic and span in a new coat of white paint with dark blue trim.

Mr. and Mrs. Edward Terhune and children of New York were at their rented cottage on the Pietro Mastrotta place over the weekend and holiday. Mrs. Terhune reports that her parents, Mr. and Mrs. Joseph Naughton, summer visitors to Shokan of long standing, are ill in the city.

## In Waterworks Days

Saturday, Oct. 15, 1910: Wholesale voting of laborers, including Negroes from Virginia where they do not vote, on the Ashokan Reservoir and Catskill Aqueduct jobs is planned by Tammany Hall and "Plumland." More than 500 names are being presented for registration in Olive and Gardiner. Eldredge M. Gathright, Democratic candidate for assemblyman and employee of the Ashokan Dam contractors, has taken personal charge of the laborers' registration in Olive. Speechmaking of Henry L. Stimson, Republican candidate for governor, at three places in the reservoir country is significant in view of the fact that John A. Bensen, president of the N. Y. City B.W.S., is the Democratic candidate for state engineer and surveyor, and engineers and contractors are reported to be leaving no stone unturned to change Ulster from a Republican to a Democratic county.

## Back to Nature

Nine members of Boy Scout Troop 63 planned to spend the last week-end camping out along the East Buttrick north of the village. The spot selected for the outing was, according to tradition, one of the favorite camping grounds of old Chief Ashokan's tribe of Indians, way back in the dim long-ago. Officers of the local council for the ensuing year are as follows: Robert Adair, scoutmaster; Norman North and Lester Davis, assistant scoutmasters; Donald North, senior patrol leader; Louis Rose, patrol leader; Harold Carlson, assistant P. L., and Arthur Bush, treasurer. The troop meets each Tuesday evening in the Reformed Church basement.

## Callers at the Margaret

Rainey home during the week included William Cole who as a boy was a neighbor of Mrs. Rainey, and Norvin Lasher, a

# Ferguson's Body to Arrive Thursday

The body of P.F.C. Preston V. Ferguson, son of Mrs. Boulah Cassinatis, of 15 Belvedere street, who was killed in action January 4, 1945 on Mindanao, Philippine Islands, will arrive in Kingston Thursday about the 2:25 p. m. West Shore train, James M. Krom of the Kingston's Veterans' Association said today.  
His funeral will be held Friday at 2 p. m. from the Jensen and Deegan Funeral Home. Burial will be in the Fairview Cemetery, Stone Ridge.  
P.F.C. Ferguson enlisted in the army February 25, 1943 at Midvale, N. J. He was a paratrooper with the 503rd Infantry.  
He was a graduate of Kingston High School and was a member of the First Reformed Church.  
His body arrived in this country September 22 aboard the Sergeant Morris E. Crain transport. Cpl. T. Kaufmann will be the government escort for the body.  
**Occupants Escape Injury**  
Occupants of two autos in collision a mile east of the by-pass on Route 32 at 9 p. m., Sunday escaped uninjured, according to the State Police. The collision, a car operated by Philander R. Schoonmaker, 22, of 24 Valley street, Saugerties, was headed east on the route, and one driven by Saylie Farraro, 49, of 356 Broadway, Kingston, was traveling in the opposite direction when they came together on a slight turn, the police said.

# One Person Hurt In 9W Accident

One person was injured slightly and the mother of three puppies abandoned them in the truck involved in a four-vehicle accident near Schoentag's Hotel, Route 9W early Sunday afternoon, according to the State Police at Lake Katrine.  
The puppies were in a truck owned and operated by Hyman D. Silverstein, 40, of Stone Ridge, and when the noise and confusion of the involved collision had subsided, the frightened mother had disappeared, the police said.  
Mrs. Mildred Silverstein, 35, was taken to the Kingston Hospital in the W. N. Conner ambulance and treated for lacerations of the knees and a slight body injury.  
The truck, headed south on the route, was first in collision with a sedan owned and operated by Earl M. Lowry, 52, of 175 Shoreham Drive, Rochester, in the south-bound lane, at about 1 p. m., the report said.  
A sedan owned by Joseph Rizzo, 18, of 103 Albany avenue,

which was parked near Luigi's Restaurant, and the coupe of Amy Tassandori, R.D., Saugerties, were also involved, as the impact of the first two in collision was carried to the other vehicles near the restaurant.  
The first collision happened, the report said, as the Lowry auto headed from the direction of Schoentag's toward the parking space in front of Luigi's Restaurant.  
The mother of the puppies had not been located anywhere in the area at the time they completed their investigation, the police said.

# The World Today

By DEWITT MACKENZIE  
(AP) Foreign Affairs Analyst  
The Palestine problem presents many grave difficulties but there is one well defined point from which the United Nations can start to figure.  
The new state of Israel is what Dr. Ralph Bunche, interim Palestine mediator, aptly describes as "a vibrant reality." It is "a going concern," and you can bet your last dollar that the Jewish people will maintain it at all hazards.  
Dr. Bunche has reported to the U.N. in Paris that Israel can't be destroyed "by any means other than force of sufficient strength to completely crush the Jews in Palestine." Where is such a force coming from? The Jews are determined fighters who have shown themselves able to cope with any Arab armies (also excellent and brave soldiers) likely to be sent against them. The only other source of strength would be the United Nations, and the peace organization isn't going to destroy anybody. Its business isn't to destroy but to preserve.  
This doesn't mean that the Israeli government isn't prepared to negotiate over the final boundaries. As a matter of fact Israel is anxious to acquire the Negev area originally awarded it by the U.N. Assembly in 1946 but assigned to the Arab nation of Trans-Jordan in the revised plan prepared by Mediator Count Folke Bernadotte just before he was assassinated.  
**Will Negotiate, but—**  
Undoubtedly Israel will negotiate, but the immutable circumstance to remember is that the Jewish national home has come to stay.  
I've been watching the developments in Palestine ever since the Balfour Declaration of 1917 held out promise of a national home. I've encountered the determination of Jewish people in many countries to make this dream of

indications that if he had held that view he has changed it.  
Dulles, who met newsmen briefly, indicated he would support the present firm policy against the Berlin blockade if the Republicans came to power. He said the Berlin question is not one of partisan politics.  
He described the blockade as a threat to peace but added it could "continue to the peace if it reminds some, who seem to have forgotten, that freedom has moral and material reserves that are unpredictable and immeasurable."  
Before leaving for Paris, where he is a member of the American U.N. delegation, Dulles disagreed with President Truman's statement Saturday that the Russian attitude has been a little more conciliatory lately. He said in the last 10 days in Paris the Russians have not altered their opinions or attitudes visibly.  
**Reds Lose Strength**  
Duesseldorf, Germany, Oct. 18 (AP)—The Christian Democrats held first place and the Communists lost strength in yesterday's communal elections in the Rhine-land and Ruhr. The Christian Democrats won 37.6 per cent of the vote; the Social Democrats 36 and the Communists only seven per cent, a loss of about six per cent since the 1946 elections. The other votes were scattered among six parties.  
**Tramp Transportation**  
Chelmsford, Eng., Oct. 18 (AP)—Tramps hereafter will ride the cushions through rolling Essex county—by order of the county council. The council instructed its welfare officers to hire taxis for any tramps stranded at night so the tramps can ride to the nearest council hostel. In the daytime, the tramps will get bus fare.
